Implementation

Under the *Education and Care Services National Law Act 2010*, it is an offence to operate an approved Centre-based education and care Centre unless a Responsible Person is present. Legislation requires that a Responsible Person be physically in attendance at all times the Centre is educating and caring for children. The Responsible Person is either the Approved Provider or the person in management or control of the Centre, the Nominated Supervisor of the Centre, or a Certified Supervisor who has been placed in day-to-day charge of the Centre.

An Approved Provider must not operate a Centre unless there is a Nominated Supervisor appointed for that Centre. The Nominated Supervisor does not have to be in attendance at the Centre at all times, but in their absence, a person with a Supervisor Certificate (a Certified Supervisor) is to be placed in charge, ensuring there is always someone on the Centre premises who has been assessed as fit and proper by the Regulatory Authority. It is important to note that a Certified Supervisor placed in day-to-day charge of a Centre **does not** have the same responsibilities under the National Law as the Nominated Supervisor.

Our Centre will maintain compliance to the following:

- Our Centre will appoint a Nominated Supervisor responsible for the operations of the Centre.
- Our Centre will nominate a qualified and experienced educator, co-ordinator or other individual as the Centre's Educational Leader. This person is responsible to lead the development and implementation of the Centre's educational programs, written consent to accept the role of Educational Leader will be kept in the Staff Record file.
- Our Centre will ensure that any educator who is under eighteen years of age does not work alone at the Centre and is supervised at all times by an educator who is over eighteen.
- We will only include educators in the educator to child ratio who are working directly with the children.

Our Centre will maintain compliance with the following in relation to the everyday practicalities of Centre's operations:

- Selectively recruit employees for the Centre, ensuring that they have the required qualifications and training to carry out the role.
- Complete comprehensive employee inductions in to their role in the Centre.
- Educators' rostering and routines will at all times make sure enough educators are available for the adequate supervision of children.
- Supervising educators give their attention to the children and not to any other duties.
- At no time will students or volunteers be included in the ration of adults supervising children.
- A Nominated Supervisor or Certified Supervisor will be on the premises at all times when children are being educated or cared for.
- There will be more than one educator present when children are in attendance. No child will at any time be in the care of a sole educator.
- Students and volunteers will never be left alone with a child or a group of children.
- In any situation where adequate supervision of children is threatened, any educators on a meal-break must be prepared to return to duty to supply adequate supervision.
- The Approved Provider or Nominated Supervisor will ensure that regulations in relation to the supervision of children are adhered to.
- Educators supervising outdoors, should position themselves to see as much of the play area as possible.
- One educator should be positioned close to the climbing frame as often as possible.
- Any water activity should be closely supervised by at least one educator at all times.
- Except for necessary discussions or concerns regarding children or matters relating to the Centre, educators will not congregate together inside or outside.
- When children are resting or sleeping they will be supervised.
- During hand washing and / or toilet times children will be supervised in the bathroom area.
- Toddlers and children undergoing toilet training will not be left unsupervised in the bathroom.
- No child is to be left unattended at the table when eating.
- Rosters will be designed and implemented to ensure that children receive continuity of care.
- Our Centre will, when possible and to the best of our ability, make use of a regular pool of relief staff.

Reporting the absence of the Nominated Supervisor and advising the person responsible for the Centre.

It is a requirement of this policy that you report your absence to the Approved Provider to ensure that this Centre is always lead / managed in every aspect by a suitably qualified and experienced person and that you are meeting the requirements of the law.

- The roster for the Nominated Supervisor or the opening / closing supervisor has changed from the roster that is in place and needs to provide a temporary replacement for the position (being a person who does not actively fill this role as the main role in the Centre). This may be due to work related meetings, professional development or leave of absence.

Educator Qualifications

Research has demonstrated that the employment of appropriately-qualified staff in early childhood services is a key contributor to the delivery of quality programs and better learning outcomes for children. 'Those with higher qualification levels and standards of training are better equipped to provide improved learning environments and mentor educators in quality practices, leading to better outcomes for children' (*Guide to the Education and Care Services National Law and the Education and Care Services National Regulations 2011*). The Australian Government has acknowledged this by legislating minimum qualification requirements for all educators working in early childhood education and care services. Eligibility for services to receive funding also includes requirements for staff to hold specific qualifications (*Victorian Kindergarten policy, procedures and funding criteria*).

A current list of approved qualifications is available on the Australian Children's Education and Care Quality Authority (ACECQA) website (refer to *Sources*). Applications can also be made to ACECQA to determine if other qualifications (such as those gained overseas) entitle the individual to work as an early childhood teacher, diploma-level educator or certificate III level educator. Application forms are available on the ACECQA website and a fee is required for processing an application.

In addition, current legislation requires at least one educator who holds current approved first aid qualifications, anaphylaxis management training and emergency asthma management training to be in attendance and immediately

available at all times that children are being educated and cared for by the service. These qualifications must be updated as required, and details of qualifications must be kept on an individual's staff record.

As a demonstration of duty of care and best practice, **all educators** employed at our Centre have current approved first aid qualifications, anaphylaxis management training, emergency asthma management training and food handlers certificate.

It is essential that all educators and other adults engaged to work directly with children are provided with opportunities to learn and develop new skills in relation to supporting the learning and development of young children. Such opportunities can arise when more qualified and experienced educators offer guidance and feedback to other educators. Opportunities for professional development are also crucial for all educators to ensure that their work practice remains current and relevant to the practices and principles of the national *Early Years Learning Framework* (EYLF) and the *Victorian Early Years Learning and Development Framework* (VEYLDF).

Staff are required to actively supervise children at all times when children are in attendance at the Centre (refer to *Child Safe Environment Policy*). To facilitate this, Centres are required to comply with legislated educator-to-child ratios at all times, and these ratios are based on the ages and number of children at the Centre. Only those educators working directly with children can be counted in the ratio.

To ensure that children are protected from harm while participating in Centre programs, all educators and staff are required by law to have and maintain a Working with Children Check (WWCC) or a criminal history record check. (This also applies to volunteers and students, unless they are working under the direct supervision of an educator who is over 18 years of age and holds, or is actively working towards an approved diploma-level education and care qualification (Regulation 358).

The qualification requirements for educators at a centre-based service educating and caring for children of preschool age or under are as follows:

From 1 January 2014;

- At least 50% of the educators who are required to meet the relevant educator to child ratios for the Centre must have or be actively working towards at least an approved diploma level education and care qualification.
- All other educators required to meet the relevant educator to child ratios for the Centre must have or be actively working towards at least an approved certificate III level education and care qualification.

- If immediately before 1 January 2012, the educator was recognised as an ECT because they were enrolled in a course for a qualification that is published on <http://www.acecqa.gov.au/qualifications/> in the list of former qualifications approved as early childhood teacher qualifications, the educator is taken to hold an approved ECT qualification when they complete the course.
- If immediately before 1 January 2012, the recognition, registration, accreditation or qualification as an ECT as written above was subject to any restrictions imposed by or under an education law of a participating jurisdiction, the person is taken to be an ECT with the same restrictions.
- The educator was registered as a teacher under the Teachers Registration and Standards Act 2004 of South Australia and was employed to deliver a preschool program.
- In some cases, educators who were registered as teachers in other States or jurisdictions hold an approved qualification. These are listed in regulation 241 and on the national regulator's website www.acecqa.gov.au/qualifications.

Educator to child ratios will always meet the minimum requirements as stated below:

- For children aged from birth to less than 36 months, 1 educator to 4 children
- For preschool aged children 36 months and over 1 educator to 11 children
- If children being educated and cared for at the Centre are of mixed ages, the minimum number of educators for the children must meet the requirements above at all times.
- When an early childhood teacher (ECT) is required to be in attendance at the Centre as per the licensed places of our Centre, that teacher is counted as an educator at the Centre for the purposes of this regulation.
- If the Centre is required to have access to an ECT for a period of time as per the licensed places, the ECT must be added to the minimum number of educators required for that service for that period.

- If the Centre is a preschool program in a school, in a class or classes where a full-time education program is also being delivered, educator ration and qualification requirements do not apply.
- At all times we will consider the needs of the children and provide adequate supervision.
