Aim

In the event that the Centre needs to be evacuated, we aim to conduct this in a rehearsed, timely, calm and safe manner to secure the safety of each person using the Centre. The safety and wellbeing of each child, educator and person using the Centre is paramount above any other consideration in the time of an emergency or evacuation. Any other procedures will be carried out only if it is safe to do so.

Implementation

The Approved Provider and Nominated Supervisor is responsible for ensuring our Centre has an Emergency Management Plan (EMP) in place that has considered all relevant risks, including procedures for evacuation, lockdown, lockout and 'shelter-in-place', emergency response procedures and drills and training schedules.

Our EMP will be developed by the Nominated Supervisor.

The Nominated Supervisor is responsible for:

- Identifying the risks and threats that could produce an emergency situation. They will conduct a risk assessment to identify potential emergencies that can affect our Centre and use this to prepare emergency and evacuation procedures. An evacuation may be necessary in the event of a fire, chemical spill, bomb scare, earthquake, siege, flood etc. Local emergency services will be consulted for advice including local fire services, police, ambulance, local government, community leaders and other relevant agencies. The advice will include information about evacuation routes and assembly points. We will use the risk assessment template in the Guide to Developing an Emergency Management Plan to identify and assess potential risks. They will develop procedures around the use of lifts, if applicable, as part of our risk assessment control measures, and will consult with the Building Manager and/or other tenants about managing risks and emergency procedures where the Centre is not the only tenant.
- Implementing measures to reduce the risk of injury during potential emergencies. For example, storing heavy items on the floor or bottom shelves, ensuring hazardous material is stored in a stable and secure way.
- Developing and implementing an Emergency Management Plan based on all identified risks which includes appropriate responses including evacuation, lockdown, lockout and shelter-in-place, and drill and training schedules. Ensuring the EMP can be easily identified and is accessible.
- Establishing an Incident Management Team (IMT)
- Implementing the EMP including:
 - **Disseminating information** about the EMP and the procedures relating to emergency management and evacuation of staff, children, visitors and families. Families will receive written notification from the Centre. We will use informal games and discussions to familiarise children with our evacuation and emergency procedures as well as regular rehearsals.
 - **Scheduling training for the IMT and** all educators, staff and volunteers. This will include ensuring educators are provided with training on how to use fire extinguishers, fire blankets and other emergency equipment. All new educators and staff will receive training during their induction and refresher training for all educators and staff will take place annually.
 - **Testing** the EMP every quarter.
 - **Reviewing** the EMP annually.
- Keeping records of all emergencies.
- Keeping records of meetings and emergency drills.
- Ensure relevant information from the Emergency Management Plan is displayed prominently at the Centre to ensure it can be easily identified and is accessible to all educators, staff, visitors, volunteers and families. Relevant information includes:
 - Emergency service telephone numbers which will be displayed near telephones
 - Evacuation procedures and diagrams which will be displayed near each exit

Our Centre will use the Department of Education and Training EMP Template.

Our Emergency Management Plan will be developed by the Nominated Supervisor and will include:

- Emergency contact details for people who have specific roles or responsibilities
- Contact details for local emergency services
- A description of how we will alert people to an emergency e.g. siren, bell, whistle
- Evacuation procedures
- How we will assist any child or person with special needs
- An evacuation diagram based on the Centre's floor plans of the venue showing the location of fire equipment, emergency exits and assembly points
- Processes for advising neighbouring businesses / residences about emergencies
- Processes to ensure staff are trained in our emergency procedures
- Processes we will follow after an incident

- Procedures we will follow to test the Plan and familiarise children and staff with the Plan
